Operating and financial review

The statutory profit attributable to the unitholders of the Fund for the half year ended 31 December 2014 was \$3.7 million (December 2013: \$4.6 million). The statutory profit for the half year ended 31 December 2014 compared to the prior comparative period reflected an increase in rental income, reduced finance costs and the write-off of transaction costs associated with the settlement of 52-56 Railway Parade, Burwood. The operating profit (profit before specific non-cash items and significant items) was \$6.7 million (December 2013: \$0.1 million loss).

Operating profit is a financial measure which is not prescribed by Australian Accounting Standards (“AAS”) and represents the profit under AAS adjusted for specific non-cash items and significant items. The Directors consider operating profit to reflect the core earnings of the Fund and it is used as a guide to assess the Fund’s ability to pay distributions to unitholders.

The following table summarises key reconciling items between statutory profit attributable to the unitholders of the Fund and operating profit. The operating profit information in the table has not been subject to any specific review procedures by the Fund’s auditor but has been extracted from Note 7: Segment reporting of the financial statements for the half year ended 31 December 2014, which have been subject to review, refer to page 26 for the auditor’s review report on the financial statements.

Property Portfolio

The portfolio maintained its 100.0% occupancy over the period, with the acquisition¹ of B8, 576 Swan Street, Richmond VIC increasing the WALE of the portfolio from 4.2 years to 4.7 years. The Fund has no expiries within the 2015 financial year ("FY15") with a key focus on the Department of Environment at 33 Allara Street whose lease expires in December 2015. As no formal lease agreement has been reached, the Fund has commenced a formal leasing campaign for the Department of Environment tenancy.

The WACR of the portfolio firmed from 8.7% to 8.25% as a result of the acquisition¹ of B8, 576 Swan Street, Richmond VIC as the valuations of the balance of the portfolio remain unchanged from June 2014.

Property acquisition and disposal

During the Initial Public Offering the Fund identified significant residential upside in its only non-core asset 52-56 Railway Parade, Burwood. Shortly after listing, the Fund launched an on-market sales campaign to dispose of the asset. The Fund exchanged contracts in June 2014 for a sale price of \$80.0m, reflecting a premium of 32.7% or \$19.7 million over the June 2013 book value; subsequently settling the sale of the asset in October 2014.

The sale removed much of the Fund's leasing risk and on-going capital expenditure requirements whilst increasing the Fund's NTA. The sale provided the Fund with significant debt capacity to pursue higher quality suburban assets with superior income streams.

On 16 December 2014 the Fund exchanged conditional contracts for the acquisition of B8, 576 Swan Street, Richmond VIC for \$46.5 million. The acquisition provides the Fund with a newly constructed A-grade suburban asset in the Melbourne suburb of Richmond. The property is 100.0% leased to GE Capital Finance and Forever New Clothing with a WALE of 7.2 years. The property was externally valued as at 28 November 2014 for \$46.5 million reflecting an initial yield of 7.7%. The property was subsequently settled on the 17th of February 2015 using the Fund's existing debt capacity.

The Fund will continue its focus on A grade suburban office assets providing Unitholders with security of income.

Property valuations

The Fund's properties were valued by the Directors as at 31 December 2014 and remained in line with previous independent valuations.

Capital management and funding

As part of the IPO and ASX listing the Fund entered into a new \$100.0 million syndicated debt facility with Bankwest and National Australia Bank. The net proceeds of the Burwood Sale were utilised to pay-down debt. As at 31 December 2014, the debt facility was drawn to \$10.5 million, which represents a gearing ratio of 4.3% based on the most recent external valuations.

On 16 January 2015, the Fund reset the interest rate swap agreements with National Australia Bank ("NAB") and Bankwest. The new swap agreements have an extended term (from May 2017 to January 2020), a reduced total notional value (from \$86.5 million to \$70 million) and have reduced the Fund's all-in interest cost² from 4.6 to 4.1%³.

1. As at 31 December 2014, the Fund had exchanged conditional contracts for the acquisition of B8, 576 Swan Street, Richmond VIC. The property was settled on 17 February 2015.

2. All-in interest cost includes interest rate swaps, margin and line fees.

3. On a pro forma basis, post settlement of the property situated at B8, 576 Swan Street, Richmond VIC.

Summary & Outlook

The low interest rate environment has continued to increase investor demand in commercial office assets, however there remains a disconnect between capital markets and real estate fundamentals as tenant demand remains somewhat subdued in line with the broader economy.

The Fund is well placed to take advantage of both on and off market transaction opportunities, utilising 360 Capital Group's reputation and network to continue to grow and diversify the Fund's earnings base.

For the half year ended 31 December 2014

Note 1: Basis of preparation of half year report

Basis of preparation

The interim financial report is a general purpose financial report which has been prepared in accordance with AASB 134: *Interim Financial Reporting* and the *Corporations Act 2001*. The general purpose financial statements are for the entity 360 Capital Office Fund and its controlled entities (“the Fund”). The Fund is a listed Fund established and domiciled in Australia. The Responsible Entity of the Fund is 360 Capital Investment Management Limited. The registered office and the principal place of business is Level 8, 56 Pitt Street, Sydney NSW 2000 Australia. The nature of operations and principal activities of the Fund are disclosed in the Responsible Entity Report.

The interim financial report does not include all of the notes and information required for a full annual financial report and should be read in conjunction with the annual financial report for the year ended 30 June 2014.

The interim financial report was authorised for issue by the Board on 18 February 2015.

Changes in accounting policy

The principal accounting policies adopted in the preparation of the interim financial report are consistent with those of the previous financial year and corresponding interim reporting period, except as set out below.

As a result of new or revised accounting standards which became effective for the financial reporting year commencing 1 July 2014, the Fund has changed some of its accounting policies. The affected policies and standards that are applicable to the Fund are:

- AASB 2012-3 Amendments to Australian Accounting Standards - Offsetting Financial Assets and Financial Liabilities;
- AASB 2013-3 Amendments to AASB 136- Recoverable Amount Disclosures for Non-Financial Assets;
- AASB 2013-4 Amendments to Australian Accounting Standards - Novation of Derivatives and Continuation of Hedge Accounting;
- AASB 2014-1 Improvements to AASBs 2010-2012 cycle; and
- AASB 2014-1 Improvements to AASBs 2011-2013 cycle.

For the financial period, the adoption of these amended standards has no material impact on the financial statements of the Fund.

The following new accounting standards, amendments to standards and interpretations have been issued, but are not mandatory as at 31 December 2014. They are available for early adoption, but have not been applied in preparing these financial statements. The Fund plans to adopt these standards on the effective date. The impact of these new standards and interpretations are as follows:

- AASB 9 – *Financial Instruments* (Effective January 1, 2018). This standard includes requirements to simplify the approach for the classification and measurement of financial assets. The Responsible Entity is currently assessing the impact on the Fund.
- IFRS 15 – *Revenue from Contracts with Customers* (Effective January 1, 2017). This standard establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. The Responsible Entity is currently assessing the impact on the Fund.

These recently issued or amended standards are not expected to have a significant impact on the amounts recognized in these financial statements when they are restated on application of these new accounting standards, except where disclosed above. The Fund has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy. Described as follows, based on the lowest level input that is significant to the fair value measurements as a whole:

Level 1 – Quoted market prices in an active market (that are unadjusted) for identical assets or liabilities

Level 2 – Valuation techniques (for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable)

Level 3 – Valuation techniques (for which the lowest level input that is significant to the fair value measurement is unobservable)

For financial instruments that are recognised at fair value on a recurring basis, the Fund determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

360 Capital Office Fund and its controlled entities
Condensed notes to the interim financial report
For the half year ended 31 December 2014

Note 12: Financial instruments (continued)

During the period, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into or out of Level 3 fair value measurements.

Valuation techniques

Derivative financial instruments

For derivatives, as market prices are unavailable the Fund uses valuation models to derive fair value. The models are industry standard and mostly employ a Black–Scholes framework to calculate the expected future value of payments by derivative, which is discounted back to a present value. The models' interest rate inputs are benchmark interest rates such as the Bank Bill Swap reference rate ("BBSW") and active broker quoted interest rates in the swap, bond and futures markets. Interest rate volatilities are sourced through a consensus data provider. As such the input parameters into the models are deemed observable, thus these derivatives are categorised as Level 2 instruments.

Borrowings

The fair value of the borrowings is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

To the unitholders of 360 Capital Office Fund

Report on the Interim Financial Report

We have reviewed the accompanying interim financial report of 360 Capital Office Fund ('the Fund'), which comprises the statement of financial position as at 31 December 2014, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the Fund and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Interim Financial Report

The directors of 360 Capital Investment Management Limited, the Responsible Entity of the Fund, are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the interim financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the interim financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of 360 Capital Office Fund and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the Responsible Entity a written Auditor's Independence Declaration, a copy of which follows the Responsible Entity Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim financial report of 360 Capital Office Fund is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2014 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
