Building strong relationships is a core business value, with the team focused on being available and approachable to help meet the needs of investors and tenants alike.

CMA is managed by Centuria Property Funds Limited (CPFL), which is a wholly owned subsidiary of Centuria Capital. CNI is a long standing, experienced fund manager with more than 20 years' operating history. Most importantly, Centuria has a strong alignment with CMA unitholders, with more than \$120 million co-invested in the REIT, making it the largest unitholder in CMA.

Centuria employs a large team of dedicated real estate professionals who ultimately contribute to the success of the REIT. Building strong relationships

is a core business value, with the team focused on being available and approachable to help meet the needs of investors and tenants alike.

This, combined with a deep knowledge of and experience in property funds management and a keen eye for opportunity and potential, enables the team to find and deliver value for CMA investors.

CHAIRMAN | Centuria Property Funds Limited

**Doug Hoskins**

ACTING FUND MANAGER | Centuria Metropolitan REIT

**CMA has continued to build its scale and relevance since listing in December 2014 and has proudly operated under Centuria's management since inception. We remain focused on continuing to build Australia's pre-eminent metropolitan REIT.**

## **INCLUSION IN THE S&P/ASX 300 INDEX**

At the commencement of trading on 18 September 2017, CMA hit a major milestone by entering the S&P/ASX Index.

The index includes up to 300 of Australia's largest ASX listed entities by float-adjusted market capitalisation and provides a widely-used benchmark for many general equities and real estate-specific institutional investors.

The inclusion of CMA in the S&P/ASX 300 Index is an important milestone, as it enhances the REIT's relevance within the Australian equity market. We are very pleased to have reached this point, having done so with the continued and valued support of our unitholders.

Dear unitholders

We are pleased to present the 2018 annual report for Centuria Metropolitan REIT (CMA), including a review of the REIT's positive performance during the financial year.

CMA delivered a strong FY18 result, with the Trust remaining focused on creating unitholder value<sup>1</sup> – as it has done since inception in December 2014.

CMA continued to mature over FY18, with several objectives creating value within the portfolio. CMA delivered on its earnings and distribution guidance.

CMA reported a statutory net profit of \$85.1 million for FY18 and distributable earnings of \$42.4 million, or 18.6 cents per unit<sup>2</sup>.

CMA paid annual distributions totaling 18.1 cents per unit in equal quarterly installments during the year. This income was underpinned by quality assets and strong relationships with tenants across the portfolio.

CMA's net tangible assets (NTA)<sup>3</sup> increased 17 cents per unit, or 7.3%, to \$2.49 per unit, as a result of valuation growth underpinned by active management initiatives and capitalisation rate compression generated by increased investment demand. CMA's gearing<sup>4</sup> remains within the target range at 28.3% as at 30 June. In, FY18 CMA recorded a strong return on equity<sup>5</sup> of 14.9%.

<sup>1</sup> Past performance is not an indicator of future performance

<sup>2</sup> Distributable earnings is a financial measure which is not prescribed by Australian Accounting Standard (AAS) and represents the profit under AAS adjusted for specific non-cash and significant items. The Directors consider that distributable earnings reflect core earnings of CMA

## PROPERTY PORTFOLIO

Throughout the year, CMA's portfolio has increased to 19 high-quality metropolitan assets, up from 15 at the beginning of the year.

Upon the completion of the purchase of 2 Kendall Street, Williams Landing, the REIT's income stream will be spread across approximately 184,000 square meters of lettable area.

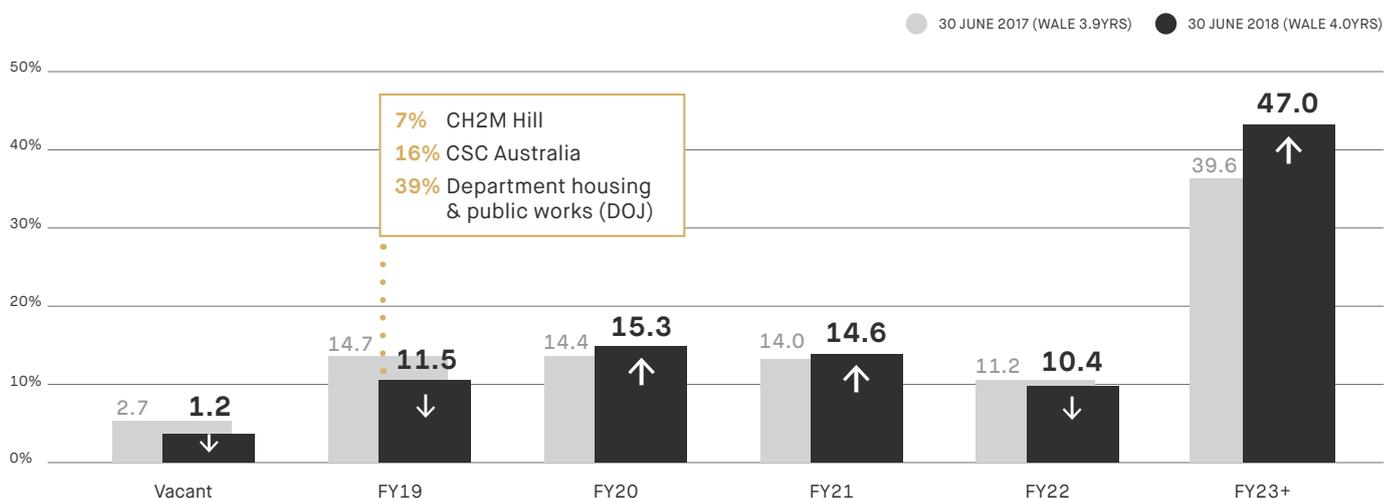

The property portfolio is geographically diverse, with significant weighting to the eastern seaboard. Thirteen properties, or 43% of the portfolio, are located in the high-performing states of New South Wales and Victoria. The portfolio also has strong green credentials, with an average NABERS energy rating of

4.0 stars<sup>1</sup>. This achievement has been driven by management initiatives throughout the year.

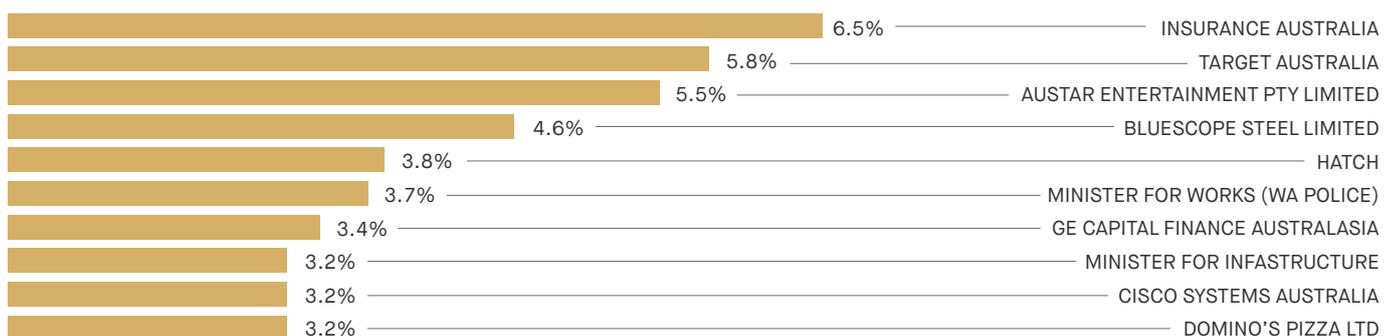

Leasing remains at the core of CMA's business and underpins the portfolio's ability to deliver secure income streams for unitholders. Concentrated efforts towards asset repositioning has seen a 10-year, 3,503sqm lease executed at 203 Pacific Highway, St Leonards, achieving a record office rent within the building. This contributed positively towards the asset's \$9.5 million valuation improvement. Additionally, CMA's two Canberra assets have now reached full occupancy.

**As a result of these leasing initiatives, CMA recorded an occupancy<sup>2</sup> rate of 98.9% – the highest since inception – and a WALE<sup>2</sup> of 4.0 years.**

Flexibility offered by our balance sheet position and prudent capital management means we are well-positioned to act when we identify value opportunities in the market.

## CAPITAL MANAGEMENT

CMA's debt book is structured across major domestic lenders with a staggered maturity profile, which reduces refinancing risk going forward. The trust has no debt maturities before December 2019.

CMA has excellent access to both equity and debt markets, with gearing<sup>1</sup> currently at 28.3%. CMA's debt

facilities total \$320 million, and CMA has a low total cost of debt of 3.6%<sup>2</sup> across the portfolio.

The Trust continues to enjoy substantial covenant headroom in both its interest cover ratio and Loan to Value (LVR) covenants. Our current LVR is 30.7%, showing \$52.4 million headroom to the loan covenant of 50%.

The flexibility offered by our balance sheet position and prudent capital management means we are well-positioned to act when we identify value opportunities in the market.

# Letter from the Chairman & Fund Manager

During the year, CMA continued to improve the portfolio quality, with more than \$256 million in transactions.

## TRANSACTIONS

CMA's investment strategy is to acquire metropolitan assets in markets where the portfolio can be enhanced, and asset quality upgraded.

During the year, CMA continued to improve the portfolio quality, with more than \$256 million in transactions. This was spread across four acquisitions for a combined \$210.9 million, plus two divestments for \$46.3 million:

### 201 PACIFIC HIGHWAY, ST LEONARDS, NSW

On 5 December 2017, CMA announced the acquisition of 50% of 201 Pacific Highway, St Leonards for \$85.8 million. The 16,488 sqm asset was acquired with 100% occupancy<sup>1</sup>, a WALE<sup>2</sup> of 3.5 years and an initial yield<sup>3</sup> of 6.6%. The asset adjoins CMA's existing asset at 203 Pacific Highway (50% ownership), above St Leonard's train station.

### 77 MARKET STREET, WOLLONGONG, NSW<sup>4</sup>

On 5 December 2017, CMA announced the acquisition of 77 Market Street, Wollongong for \$33.3 million. The 6,755sqm asset was acquired with 100% occupancy<sup>1</sup>, a WALE<sup>2</sup> of 4.3 years and an initial yield<sup>3</sup> of 7.5%. The asset is anchored by AHM Group (Medibank Private) and Illawarra Retirement Trust.

### 144 STIRLING STREET, PERTH, WA

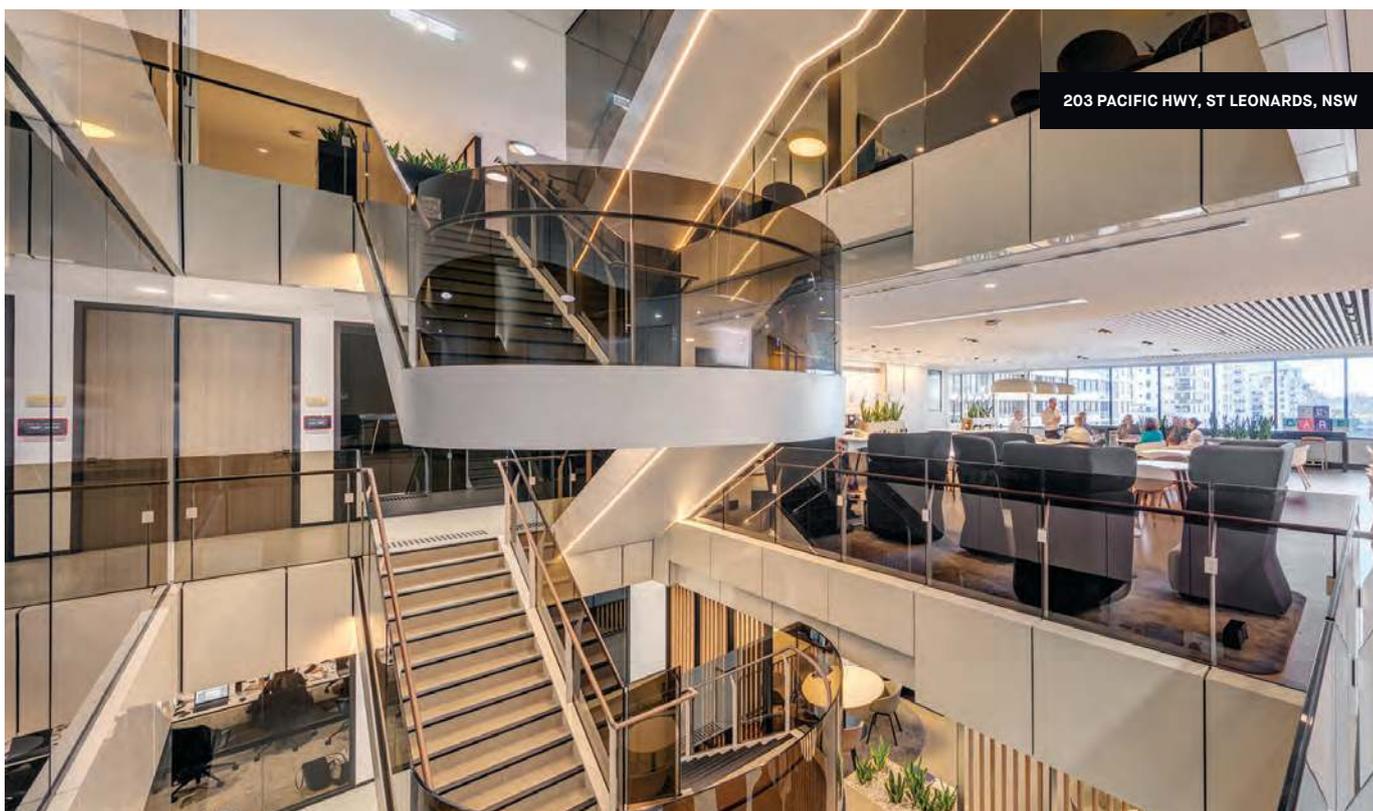

On 1 August 2017, CMA acquired 144 Stirling Street, Perth for \$58.2 million. The 11,042 sqm asset is 100% occupied<sup>1</sup> to the WA Government (WA Police) and international consultancy firm Hatch & Associates. The asset was acquired on an initial yield<sup>3</sup> of 9.2% with a WALE<sup>2</sup> of 3.9 years.

### 42-46 COLIN STREET, WEST PERTH, WA

On 1 August 2017, CMA acquired 42-46 Colin Street, West Perth for \$33.6 million. The 8,439 sqm asset is 100% occupied<sup>1</sup>, with Insurance Australia Group the major occupier. The asset was acquired on an initial yield<sup>3</sup> of 8.7% with a WALE<sup>2</sup> of 4.5 years.

## DIVESTMENTS

During the year CMA divested two NSW assets from its portfolio. The sale of 3 Carlingford Road<sup>5</sup>, for \$36 million, showed a 27.2% premium to book value and represents the fulfilment of a strategy to deliver and unlock capital value to CMA unitholders. The Trust also sold 44 Hampden Road for \$10.3 million, which reflected an IRR to unitholders of 18% over the period of CMA's ownership.

# Letter from the Chairman & Fund Manager

**CMA will continue to actively manage its portfolio with an emphasis on our tenant customers to ensure rental income and tenant occupancy are maximized.**

## SUMMARY AND OUTLOOK

CMA remains focused on delivering secure income streams from a diversified national tenant base, continual improvement in occupancy and WALE, and ongoing enhancement of the portfolio's asset quality.

CMA has a quality tenant base, strong occupancy<sup>1</sup> of 98.9%, and a 4.0 year WALE<sup>1</sup>. With gearing<sup>2</sup> of 28.3%, CMA has appropriate headroom to make strategic acquisitions to continue to improve the quality of the portfolio. CMA remains well positioned to assess and invest in Australian metropolitan assets that provide a basis for opportunities to create value.

The coming year will see us complete the acquisition of 2 Kendall Street, Williams Landing and the settlement of 3 Carlingford Road, Epping.

CMA also anticipates the divestment of the portfolio's industrial assets if market conditions are favourable. Should the sale of the industrial assets occur, CMA will become a specialist, pure-play metropolitan office portfolio.

CMA will continue to actively manage its portfolio with an emphasis on our tenant customers to ensure rental income and tenant occupancy are maximized. Additionally, CMA remains focussed on asset repositioning strategies that aim to generate additional value for tenants and unitholders.

CMA's distribution guidance for FY19 is 18.1 cents per unit, representing a strong distribution yield of 7.3%<sup>3</sup>.

Distribution payment date	27 July 2018

The distributions of 18.1 cpu are in line with the 2018 financial year guidance. The table below provides a reconciliation from the consolidated statement of profit or loss and other comprehensive income to the distributable earnings for the year:

	30 Jun 2018 \$'000	30 Jun 2017 \$'000
Net profit for the year	<b>85,082</b>	37,689
<i>Adjustments:</i>		
Net (gain) on fair value of investment properties	<b>(41,957)</b>	(17,180)
Loss/(gain) on fair value of derivative financial instruments	<b>646</b>	(1,420)
Straight-lining of rental income	<b>(3,927)</b>	(1,366)
Amortisation of incentives and leasing fees	<b>1,530</b>	356
Net (gain) on fair value of investments in listed trusts	-	(884)
Lease incentives funded by vendors on property acquisitions	-	538
Business combination transaction costs	<b>434</b>	4,263
Amortisation of borrowing costs	<b>560</b>	367
Corporate simplification costs	-	428
<b>Distributable earnings for the period</b>	<b>42,368</b>	22,791

The Trust issued 63.6 million units in the September and December quarters to assist with the acquisition of new properties. These units were entitled to a distribution for the full quarters, however as the properties acquired were not owned for the entire period, the income received from these properties was less than the distribution paid for these periods. Accordingly, this has resulted in total distributions for the year being higher than the distributable earnings.

# Notes to the consolidated financial statements

For the year ended 30 June 2018

## A About the report

### A1 GENERAL INFORMATION

Centuria Metropolitan REIT is a registered managed investment scheme under the Corporations Act 2001 and domiciled in Australia. The principal activity of the Trust is disclosed in the directors' report.

#### STATEMENT OF COMPLIANCE

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The consolidated financial statements comply with International Financial Reporting Standards (IFRS) adopted by the International Accounting Standards Board (IASB).

For the purposes of preparing the financial statements, the Trust is a for-profit entity.

The financial report was authorised for issue in accordance with a resolution of the board of directors of Centuria Property Funds Limited, the Responsible Entity, on 21 August 2018.

#### BASIS OF PREPARATION

The consolidated financial statements have been prepared on the basis of historical cost, except for investment property and derivative financial instruments which have been measured at fair value at the end of each reporting period. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, which is the Trust's functional currency, unless otherwise noted.

##### (i) Going concern

The financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

#### ROUNDING OF AMOUNTS

The Trust is a scheme of a kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' Report and financial statements. Amounts in the Directors' Report and financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

### A2 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation in the preparation of the consolidated financial statements are consistent with those adopted in the previous financial year ended 30 June 2017 unless specifically outlined below or in the relevant notes to the consolidated financial statements.

When the presentation or classification of items in the consolidated financial statements has been amended, comparative amounts are also reclassified, unless it is impractical.

Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported.

These financial statements contain all significant accounting policies that summarise the recognition and measurement basis used and which are relevant to provide an understanding of the financial statements. Accounting policies that are specific to a note to the financial statements are described in the note to which they relate.

#### USE OF ESTIMATES AND JUDGEMENTS

In the application of the Trust's accounting policies, the Responsible Entity is required to make judgements, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The judgements, estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period; or in the period of the revision and future periods if the revision affects both current and future periods. The key estimates and judgements in the financial report relate to the valuation of investment properties (per Note C2), goodwill (per Note C5) and derivative financial instruments (per Note E2).

Judgements made by the Responsible Entity that have significant effects on the financial statements and estimates with significant risk of material adjustments in the next year are disclosed, where applicable, in the relevant notes to the financial statements.

#### SEGMENT REPORTING

The Trust operates in one segment, being investments in Australian industrial, metropolitan and business park office property. The Trust has determined its one operating segment based on the internal information that is provided to the chief operating decision maker and which is used in making strategic decisions. The Responsible Entity has been identified as the Trust's chief operating decision maker.

Event	Date
Ex-distribution date	28 June 2018
Record date	29 June 2018
Distribution payment date	27 July 2018

### DISTRIBUTION AND TAXATION

Under current legislation the Trust is not subject to income tax when its taxable income (including assessable realised capital gains) is distributed in full to the security holders. The Trust ordinarily fully distributes its distributable income, calculated in accordance with the Trust constitution and applicable taxation legislation, to the security holders who are presently entitled to the income under the constitution.

Investments and financial instruments held at fair value may include unrealised capital gains. Should such a gain be realised that portion of the gain that is subject to capital gains tax will be distributed to security holders so that the Trust is not subject to capital gains tax.

Realised capital losses are not distributed to security holders but are retained in the Trust to be offset against any future realised capital gains. If realised capital gains exceed realised capital losses the excess is distributed to the security holders.

Distributions paid and payable are recognised as distributions within equity. A liability is recognised where distributions have been declared but have not been paid. Distributions paid are included in cash flows from financing activities in the consolidated statement of cash flows.

### B2 REVENUE

#### RECOGNITION AND MEASUREMENT

Revenue is measured at the fair value of the consideration received or receivable to the extent it is probable that the economic benefits will flow to the Trust and the revenue can be reliably measured.

#### (i) Rental income

Rental income from investment property is recognised in profit or loss on a straight line basis over the term of the lease. Rental income not received at reporting date is reflected in the consolidated statement of financial position as a receivable. If rents are paid in advance these amounts are recorded as payables in the consolidated statement of financial position.

Lease incentives granted are recognised as an integral part of the net consideration agreed for the use of the leased premises, irrespective of the incentive's nature or form or the timing of payments. The aggregate cost of lease incentives are recognised as a reduction of rental income on a straight-line basis over the lease term.

Contingent rents based on the future amount of a factor that changes other than with the passage of time are only recognised when charged.

	30 Jun 2018 \$'000	30 Jun 2017 \$'000
Rent and recoverable outgoings	73,098	40,019
Straight-lining of lease revenue	3,927	1,366
	<b>77,025</b>	<b>41,385</b>

#### (ii) Recoverable outgoings

Recoverable outgoings are recognised on an accrual basis.

#### (iii) Interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding using the effective interest rate method.

#### (iv) Sale of properties

Any gain or loss arising on the sale of an investment property is recognised when the significant risks and rewards of ownership have been transferred to the purchaser and where there is no continuing management involvement, which normally coincides with settlement of the contract for sale. The gain or loss is calculated as the difference between the net disposal proceeds and the carrying amount of the asset.

# Notes to the consolidated financial statements

## B Trust performance

### B3 EXPENSES

#### RECOGNITION AND MEASUREMENT

Finance costs are recognised in the profit or loss statement as they accrue. Finance costs are recognised using the effective interest rate applicable to the financial liability.

#### (i) Finance costs

Finance costs include interest expense and amortised borrowing costs.

	30 Jun 2018 \$'000	30 Jun 2017 \$'000
Interest expense	8,450	5,500
Amortisation of borrowing costs	560	363
	<b>9,010</b>	<b>5,863</b>

#### (ii) Other expenses

All other expenses, including rates, taxes and other property outgoings and management fees are recognised in profit or loss on an accruals basis. Other operating expenses include legal, accounting and audit fees.

#### (iii) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax (GST) recoverable from the Australian Taxation Office (ATO) as an input tax credit (ITC).

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included in receivables or payables in the consolidated statement of financial position.

Cash flows are included in the consolidated statement of cash flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the ATO is classified as operating cash flows.

<b>Current</b>		
Trade receivables	91	526
Other receivables	1,234	601
	<b>1,325</b>	<b>1,127</b>

Refer to Note E2 for details on fair value measurement and the Trust's exposure to risks associated with financial assets (other receivables are not considered to be financial assets).

#### RECOGNITION AND MEASUREMENT

Trade receivables and other receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method, less an allowance for impairment. Due to the short-term nature of these financial rights, their carrying amounts are estimated to represent their fair values.

The carrying amounts of the Trust's assets, other than those recorded at fair value, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised directly in profit or loss.

### C2 INVESTMENT PROPERTIES (CONTINUED)

#### RECOGNITION AND MEASUREMENT

Investment properties are properties held either to earn rental income or for capital appreciation or for both. Investment properties are initially recorded at cost which includes stamp duty and other transaction costs. Subsequently, the investment properties are measured at fair value with any change in value recognised in profit or loss. The carrying amount of investment properties includes components relating to deferred rent, lease incentives and leasing fees.

An investment property is derecognised upon disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

#### VALUATION TECHNIQUES AND SIGNIFICANT UNOBSERVABLE INPUTS

The fair value of the investment properties were determined by the directors of the Responsible Entity or by an external, independent valuation company having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Fair value is based on market values, being the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

The valuations were prepared by considering the following valuation methodologies:

- Capitalisation Approach: the annual net rental income is capitalised at an appropriate market yield to arrive at the property's market value. Appropriate capital adjustments are then made where necessary to reflect the specific cash flow profile and the general characteristics of the property.
- Discounted Cash Flow Approach: this approach incorporates the estimation of future annual cash flows over a 10 year period by reference to expected rental growth rates, ongoing capital expenditure, terminal sale value and acquisition and disposal costs. The present value of future cash flows is then determined by the application of an appropriate discount rate to derive a net present value for the property.
- Direct Comparison Approach: this approach identifies comparable sales on a dollar per square meter of lettable area basis and compares the equivalent rates to the property being valued to determine the property's market value.

The valuations reflect, when appropriate; the type of tenants actually in occupation or responsible for meeting lease commitments or likely to be in occupation after letting of vacant accommodation and the market's general perception of their credit-worthiness; the allocation of maintenance and insurance responsibilities between the lessor and lessee; and the remaining economic life of the property. It has been assumed that whenever rent reviews or lease renewals are pending with anticipated reversionary increases, all notices and, where appropriate, counter notices have been served validly and within the appropriate time.

#### FAIR VALUE MEASUREMENT

The fair value measurement of investment property has been categorised as a Level 3 fair value as it is derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs).

Significant unobservable inputs	Fair value measurement sensitivity to significant increase in input	Fair value measurement sensitivity to significant decrease in input	Range of inputs
Capitalisation rate	Decrease	Increase	5.25% - 7.50%
Discount rate	Decrease	Increase	6.25% - 8.00%
Net market rent	Increase	Decrease	\$100 - \$717

Capitalisation and discount rates are considered significant Level 3 inputs. Refer to Note E2 for further information.

### C3 INVESTMENT PROPERTIES HELD FOR SALE

On 20 June 2018, the Trust exchanged unconditional contracts for the sale of 3 Carlingford Road, Epping NSW. Settlement of the property is expected to occur in November 2018.

Property	30 Jun 2018 Fair Value \$'000	30 Jun 2017 Fair Value \$'000	30 Jun 2018 Capitalisation Rate	30 Jun 2017 Capitalisation Rate	30 Jun 2018 Valuer	Last Independent Valuation Date*
3 Carlingford Road, Epping	36,000	27,000	5.25%	6.25%	Director	Nov 2017
	36,000	27,000				

The fair values listed above do not include estimated selling costs which are expected to be incurred upon disposal.

### RECOGNITION AND MEASUREMENT

Investment properties are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. These investment properties are carried at fair value. The valuation techniques to determine the fair value of investment properties held for sale are same as the valuation techniques of investment properties described in Note C2.

Where sale completion is delayed by events outside the control of the Trust, and the sale is not completed within one year from the date of classification, the Trust may still classify the asset as held for sale. In this circumstance, there must be sufficient evidence the Trust is committed to sell the asset, and as such obtain a firm purchase commitment from the buyer along with a favourable resolution for the Trust, for the delay. A favourable resolution for the Trust would be the right to receive rental income for the period, up until the date any sale was completed.

On 9 January 2017, Trust acquired 6,423,084 units (representing 8.76%) of Centuria Urban REIT (previously known as 360 Capital Office Fund). Subsequently, on 14 June 2017, the unitholders of CUA voted to approve the merger of the two entities, for the Trust to take control over CUA. From then, the Trust no longer held these units as an investment held at fair value through profit or loss as the units are eliminated on consolidation (refer to Note D1).

## C Trust's assets and liabilities

### C4 INVESTMENTS HELD IN LISTED TRUSTS (CONTINUED)

#### RECOGNITION AND MEASUREMENT

A financial asset is designated as at fair value through profit or loss upon initial recognition if:

- Such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- The financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Trust's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- It forms part of a contract containing one or more embedded derivatives, and AASB 139 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as fair value through profit and loss.

Financial assets at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognised in profit or loss. Fair value is determined in the manner described in Note E2.

### C5 INTANGIBLES

Goodwill was generated on the merger with CUA on 29 June 2017. The details of the merger are in Note D1.

	30 Jun 2018 \$'000	30 Jun 2017 \$'000
<b>Non-current assets</b>		
Intangibles	6,356	6,356
	<b>6,356</b>	<b>6,356</b>

Goodwill is tested annually for impairment. It is impaired if the recoverable amount, calculated as fair value less costs to sell, is less than its carrying amount.

Based on impairment testing performed as at 30 June 2018 the fair value of the portfolio less costs to sell calculation, which is based on market capitalisation plus a portfolio premium, supports the recoverability of goodwill. Based on this testing recoverable amount exceeds the carrying amount by \$10.4 million. A change in portfolio premium or market capitalisation exceeding this amount may lead to the carrying amount of goodwill exceeding its recoverable amount. At balance date and immediately after balance date, the current market price of the Trust units do not indicate a permanent structural decline in the fair valuation of equity below the net assets of the Trust. No intangibles were impaired in 2018 (30 June 2017: nil).

### C6 OTHER NON-CURRENT ASSETS

On 29 June 2017, the Trust entered into a contract for the acquisition of an investment property at 2 Kendall Street, Williams Landing. The Trust paid a 5% deposit, equivalent to \$2,912,000, with the balance of the purchase price of \$58,240,000 payable upon practical completion, which is expected to be by January 2019.

## C Trust's assets and liabilities

Refer to Note D2 for amounts payable to related parties.

### C7 TRADE AND OTHER PAYABLES (CONTINUED)

#### RECOGNITION AND MEASUREMENT

Trade payables and other accounts payable are recognised when the Trust becomes obliged to make future payments resulting from the purchase of goods and services and are recorded initially at fair value, net of any attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost.

Distributions paid and payable are recognised as distributions within equity. A liability is recognised where distributions have been declared but not been paid. Distributions paid are included in cash flows from financing activities in the consolidated statement of cash flows.

A provision is recognised if, as a result of a past event, the Trust has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

### C8 BORROWINGS

	<b>265,961</b>	<b>187,742</b>

At 30 June 2018, the Trust had the following secured debt facilities:

	30 Jun 2018 \$'000	30 Jun 2017 \$'000
Total facilities - bank loans	320,000	260,000
Facilities used at reporting date - bank loans	(267,553)	(189,526)
Facilities unused at reporting date - bank loans	52,447	70,474

As at 30 June 2018, the Trust had \$160.0 million (2017: \$84.0 million) of interest rate swaps hedged against its drawn debt. Refer to Note C9 for further details on interest rate swap contracts held at 30 June 2018.

The debt facilities are secured by first mortgages over the Trust's investment properties and a first ranking fixed and floating charge over all assets of the Trust.

The secured loan has covenants in relation to Loan to Value Ratio ('LVR') and Interest Coverage Ratio ('ICR') which the Trust has complied with during the year.

#### RECOGNITION AND MEASUREMENT

Borrowings are recorded initially at fair value, net of any attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest rate method with any difference between the initial and recognised amount and redemption value being recognised in profit or loss over the period of borrowing and are derecognised when the contractual obligations are discharged, cancelled or expire.

#### INTEREST RATE SWAP CONTRACTS

Under interest rate swap contracts, the Trust agrees to exchange the difference between fixed and floating rate interest amounts calculated on agreed notional principal amounts. Such contracts enable the Trust to mitigate the risk of changing interest rates on the cash flow exposures on the variable rate debt held. The following table details the specific instruments held at reporting date, showing the notional principal amounts and contracted fixed interest rate of each contract:

			<b>104,000</b>	-	<b>(1,988)</b>

#### RECOGNITION AND MEASUREMENT

Derivatives are initially recognised at fair value and attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value, and the resulting gain or loss is recognised in profit or loss.

The fair value of interest rate swaps is the estimated amount that the entity would receive or pay to transfer the swap at reporting date, taking into account current interest rates and the current creditworthiness of the swap counterparties.

The Trust has not applied hedge accounting to its derivative financial instruments.

Refer to Note E2 for details on the Trust's exposure to risks associated with financial liabilities.

### D1 INTEREST IN MATERIAL SUBSIDIARIES

#### CENTURIA METROPOLITAN REIT NO. 2 ('CMR2')

On 9 February 2017, the Responsible Entity announced a proposal for a corporate simplification strategy which involved the de-stapling of CMR1 and CMR2, and acquisition of 100% of the units in CMR2 by CMR1. On 15 March 2017, the unitholders of CMA voted to approve the simplification strategy, with an implementation date of 22 March 2017. On the implementation date, all of the units on issue in CMR2 were transferred to CMR1 in exchange for the issue of additional units in CMR1. As such, from this date CMR1 has been recognised as a wholly owned subsidiary within the Trust's consolidated financial statements. Accordingly, there is no non-controlling interest in the Trust following this date.

#### CENTURIA URBAN REIT ('CUA')

On 3 March 2017, the Responsible Entity announced a merger proposal with CUA, of which it already owned an 8.76% interest, by way of acquiring 100% of the remaining units. On 14 June 2017, the unitholders of CUA voted to approve the merger, from which point the Trust is taken to have control over CUA. As such, from this date CUA's financial performance and financial position has been included within the Trust's consolidated financial statements. The Trust completed the acquisition of the remaining units effective 29 June 2017.

### D1 INTEREST IN MATERIAL SUBSIDIARIES (CONTINUED)

#### RECOGNITION AND MEASUREMENT

##### (i) Business combination

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Trust elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

When the Trust acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised directly in profit or loss. Refer to Note C5 for details of management's assessment.

##### (ii) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Trust and entities controlled by the Trust. Control is achieved where the Trust is exposed to, or has rights to, the variable returns from its involvement with an entity and has the ability to affect these returns through its power over the entity.

The Trust accounts for business combinations using the acquisition method when control is transferred to the Trust. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. When the Trust loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related non-controlling interests and other components of equity. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date on which control commences until the date on which control ceases.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the consolidated group. All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in the net assets attributable to security holders of consolidated subsidiaries are identified separately from the Trust's security holders. Non-controlling interests are measured at their proportionate share of the acquiree's identifiable net assets at the date of acquisition.

##### (iii) Subsidiaries

The consolidated financial statements include the assets, liabilities and results of Centuria Metropolitan REIT and the subsidiaries it controls. Subsidiaries are entities controlled by the Trust in accordance with AASB 10. Control exists when an investor is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The financial statements of subsidiaries are included in the financial report from the date that control commences until the date that control ceases.

The Trust uses the purchase method of accounting to account for the acquisition of subsidiaries. Intercompany transactions, balances and recognised gains on transactions between Trust entities are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Trust.

The Responsible Entity is entitled to a management fee which is calculated at 0.60% of the gross value of assets held plus GST, however, the Responsible Entity has elected to charge a management fee calculated at 0.55% of the gross value of assets held plus GST.

Custodian fees are paid to the custodians. Custody fees paid to Centuria Property Funds Limited are calculated in relation to some of the Trust's assets and in accordance with the constitution at a rate of 0.05% of the Fund's gross assets.

At reporting date an amount of \$217,024 (2017: \$247,384) owing to the Responsible Entity and its related parties was included in trade and other payables. The payables are non-interest bearing with payment terms and conditions consistent with normal commercial practices.

The following fees were paid and/or payable to the Responsible Entity and its related parties from the Trust and all subsidiaries during the financial year:

	30 Jun 2018	30 Jun 2017
Management fees	4,192,254	2,385,042

Development fees	410,120	134,915
Other professional fees	-	16,902
	<b>6,181,839</b>	<b>3,594,187</b>

All transactions with related parties are conducted on normal commercial terms and conditions. From time to time Centuria Property Funds Limited, its directors or its director-related entities may buy or sell securities in the Trust. These transactions are on the same terms and conditions as those entered into by other Trust investors.

Interest rate swaps	Fair value	Level 2	1,988	1,988
			<b>203,293</b>	<b>203,293</b>

The directors of the Responsible Entity consider that the carrying amount of the financial assets and financial liabilities recorded at amortised cost in the financial statements approximates their fair value.

#### (i) Valuation techniques

The fair value of financial assets and financial liabilities are determined as follows:

- The fair value of interest rate swaps are determined using a discounted cash flow analysis. The future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contracted interest rates, discounted at a rate that reflects the credit risk of various counterparties.

### E2 FINANCIAL INSTRUMENTS (CONTINUED)

The Trust classifies fair value measurements using a fair value hierarchy that reflects the subjectivity of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: derived from quoted prices (unadjusted) in active markets for identical assets or liabilities that the Trust can access at the measurement date.
- Level 2: derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Responsible Entity. The Responsible Entity considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

#### (ii) Fair value hierarchy

The table below sets out the Trust's financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy:

	Total \$'000	Level 1 \$'000	Level 2 \$'000	Level 3 \$'000
<b>30 Jun 2018</b>				
<b>Financial liabilities held at fair value</b>				
Interest rate swaps	428	-	428	-
	428	-	428	-
<b>30 Jun 2017</b>				
<b>Financial liabilities held at fair value</b>				
Interest rate swaps	1,988	-	1,988	-
	1,988	-	1,988	-

There were no transfers between Level 1 and Level 2 during the period.

The Responsible Entity obtains independent valuations to measure the fair value of financial instruments at each reporting date. The Responsible Entity assesses and documents the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of International Financial Reporting Standards, including the level in the fair value hierarchy that the resulting fair value estimate should be classified.

### CAPITAL MANAGEMENT

The capital structure of the Trust consists of cash and cash equivalents and the proceeds from the issue of the units of the Trust.

The risk associated with meeting redemption requests is minimal as the Centuria Property Funds Limited has the discretion in approving redemptions.

The Trust has no restrictions or specific capital requirements on the application and redemption of units, other than the approval of the Centuria Property Funds Limited.

The Trust's overall investment strategy remains unchanged from the prior year.

### E2 FINANCIAL INSTRUMENTS (CONTINUED)

#### FINANCIAL RISK MANAGEMENT OBJECTIVES

The Trust is exposed to a variety of financial risks as a result of its activities. These potential risks include market risk (interest rate risk), credit risk and liquidity risk. The Trust's risk management and investment policies seek to minimise the potential adverse effects of these risks on the Trust's financial performance.

#### MARKET RISK

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Trust's activities expose it primarily to the financial risks of changes in interest rates. The Trust enters into derivative financial instruments to manage its exposure to interest rate risk and these include interest rate swaps that the Trust has entered into to mitigate the risk of rising interest rates.

There has been no change to the Trust's exposure to market risks or the manner in which it manages and measures the risk from the previous year.

#### (i) Interest rate risk management

In respect of income-earning financial assets and interest-bearing financial liabilities, the following table indicates their effective interest rates at reporting date:

	30 Jun 2018		30 Jun 2017	
	Effective interest rate	Total \$'000	Effective interest rate	Total \$'000
<b>Financial liabilities</b>				
Borrowings (excluding borrowing costs)	3.63%	267,553	3.23%	189,526
Interest rate swaps	2.21%	428	2.70%	1,988
		267,981		191,514

#### (ii) Interest rate sensitivity

The sensitivity analysis below has been determined based on the Trust's exposure to interest rates at the reporting date and the stipulated change taking place at the beginning of the financial year and held constant throughout the reporting period, in the case of financial assets and financial liabilities that have variable interest rates.

At reporting date, if variable interest rates had been 100 (2017: 100) basis points higher or lower and all other variables were held constant, the impact to the Trust would have been as follows:

	Variable + / -	Sensitivity impact	
		Rate increase \$'000	Rate decrease \$'000
<b>30 Jun 2018</b>			
Net profit/(loss)	100 bps	(579)	505
		(579)	505
<b>30 Jun 2017</b>			
Net profit/(loss)	100 bps	1,668	(1,730)
		1,668	(1,730)

The Trust's sensitivity to interest rates calculated above is after taking into account the impact of interest rate changes on the interest rate swap fair values. The methods and assumptions used to prepare the sensitivity analysis have not changed during the year.

#### CREDIT RISK

The Trust has adopted the policy of dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the financial risk of financial loss from default. The Trust's exposure and the credit ratings of its counterparties are continuously monitored by the Responsible Entity.

At 30 June 2018, the main financial assets exposed to credit risk are trade receivables. There were no significant concentrations of credit risk to counterparties at 30 June 2018. Refer to Note C1 for details of trade receivables.

The credit risk on receivables is minimal because of the proven remittance history of the counterparties. Credit risk from balances with banks and financial institutions is managed by the Responsible Entity in accordance with the Trust's investment policy. Cash investments are made only with approved counterparties.

The carrying amounts of financial assets best represent the maximum credit risk exposure at the reporting date.

#### LIQUIDITY RISK

The Trust's strategy of managing liquidity risk is in accordance with the Trust's investment strategy. The Trust manages liquidity risk by maintaining adequate banking facilities and through the continuous monitoring of forecast and actual cash flows and aligning the profiles of financial assets and liabilities.

The following tables summarise the maturity profile of the Trust's financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Trust can be required to pay. The tables include both interest and principal cash flows:

	Effective interest rate	Total principal and interest \$'000	Less than 1 year \$'000	1 to 5 years \$'000	5+ years \$'000
<b>30 Jun 2018</b>					
Trade and other payables	-%	18,978	18,978	-	-

### E3 NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

#### ADOPTION OF NEW AND REVISED ACCOUNTING STANDARDS

In the current year, the Trust has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board that are relevant to its operations and effective for the current reporting year. New and revised Standards and amendments thereof and Interpretations effective for the current period that are relevant to the Trust include:

- AASB 2016-2 'Amendments to Australian Accounting Standards - Disclosure Initiative: Amendments to AASB 107'. Effective for annual reporting periods beginning on or after 1 January 2017.

The adoption of these new and revised Standards and Interpretations has not had any significant impact on the disclosures or amounts reported in these financial statements.

#### NEW STANDARDS AND INTERPRETATIONS NOT YET ADOPTED

AASB 9 Financial Instruments, AASB 15 Revenue from Contracts with Customers and AASB 16 Leases are new standards which are effective for annual periods beginning after 1 July 2017. Whilst earlier application was permitted, the Trust has not early adopted the new or amended standards in preparing these consolidated financial statements.

The Trust is required to adopt AASB 9 Financial Instruments, AASB 15 Revenue from Contracts with Customers and AASB 16 Leases from 1 July 2018 and has assessed the estimated impact that the initial application of these standards will have on its consolidated financial statements.

Based on the Trust's assessment, the Trust does not believe that these new accounting standards will have a material impact on the Trust's equity as at 1 July 2018. This impact is assessed based on analysis performed to date. The actual impacts of adopting the standard at 1 July 2018 may vary because the new accounting policies are subject to change until the Trust presents its first financial statements at the date of initial application.

#### *(i) AASB 9 Financial Instruments*

AASB 9 Financial Instruments sets out requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces AASB 139 Financial Instruments: Recognition and Measurement.

#### *(a) Classification - Financial assets*

AASB 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

AASB 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit and loss (FVTPL). The standard eliminates the existing AASB 139 categories of held to maturity, loans and receivables and available for sale.

Based on its assessment, the Trust does not believe that the new classification requirements will have a material impact on its accounting for all receivables and financial assets (which are already carried at fair value).

#### *(b) Impairment - Receivables*

AASB 9 replaces the 'incurred loss' model in AASB 139 with a forward-looking 'expected credit loss' (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis.

The new impairment model will apply to the Trust's receivables which continue to be measured at amortised cost.

Based on its assessment, the Trust does not believe that the new impairment model will have a material impact on its equity upon transition as at 1 July 2018.

#### *(c) Classification - Financial liabilities*

There will be no impact on the Trust's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the Trust does not have any such liabilities.

The derecognition rules have been transferred from AASB 139 Financial Instruments: Recognition and Measurement and have not been changed.

#### *(d) Hedge accounting*

The new hedge accounting rules generally allow for more hedge relationships to be eligible for hedge accounting, as the standard introduces a more principles-based approach. The Trust does not expect a significant impact as a result of the hedging changes on transition on 1 July 2018.

#### *(e) Transition*

Changes in the accounting policies resulting from the adoption of AASB 9 will generally be applied retrospectively, however as there is no expected material impact on carrying amounts of financial assets and financial liabilities, there will be no transitional implications on the Trust's equity at 1 July 2019, nor its comparatives.

# Notes to the consolidated financial statements

For the year ended 30 June 2018

## Other notes

### E3 NEW ACCOUNTING STANDARDS AND INTERPRETATIONS (CONTINUED)

#### *(ii) AASB 15 Revenue from Contracts with Customers*

The new revenue standard, AASB 15 Revenue from customers applies to all contracts with customers to deliver goods or services as part of the entity's ordinary course of business excluding insurance contracts, financial instruments and leases which are addressed by other standards. It replaces existing revenue recognition guidance, including AASB 118 Revenue and AASB 111 Construction Contracts.

AASB 15 replaces the considerations of risks and rewards under AASB 118 to the concept of when control passes to the customer as the trigger point for the recognition of revenue.

Rental income, interest income, distribution and dividend income and fair value movements in investment properties are excluded from the scope of this standard.

Based on its assessment, the Trust believes that the new standard has no impact on the Trust's equity as at 1 July 2018

#### *(iii) AASB 16 Leases*

AASB 16 was issued in February 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will primarily affect the accounting for the Trust's operating leases. As at the reporting date, the Trust does not have any non-cancellable operating lease commitments. Accordingly, the standard has no material impact to the Trust's profit and classification of cash flows.

It is mandatory for financial years commencing on or after 1 January 2019, but available for early adoption. The Trust will adopt this standard in the year ending 30 June 2020.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

### E4 EVENTS SUBSEQUENT TO REPORTING DATE

There have been no other events subsequent to balance date which would have a material effect on the Trust's consolidated financial statements at 30 June 2018.

## Independent Auditor's Report

To the unitholders of Centuria Metropolitan REIT

### Opinion

We have audited the **Financial Report** of Centuria Metropolitan REIT (the Fund).

In our opinion, the accompanying Financial Report of the Fund is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Group's** financial position as at 30 June 2018 and of their financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises:

- Consolidated statement of financial position as at 30 June 2018
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended
- Notes including a summary of significant accounting policies
- Directors' Declaration.

The **Group** consists of Centuria Metropolitan REIT and the entities it controlled at the year-end or from time to time during the financial year.

### Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with *the Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

### Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

These matters were addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Other Information

Other Information is financial and non-financial information in Centuria Metropolitan REIT's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors of Centuria Property Funds Limited (the Responsible Entity) are responsible for the Other Information.

The Other Information we obtained prior to the date of this Auditor's Report was the Directors' Report, Corporate Governance Statement and Additional ASX Information. The Fund Update, Strategies and Objectives are expected to be made available to us after the date of the Auditor's Report.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

## Responsibilities of the Directors for the Financial Report

The Directors of the Responsible Entity are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Group's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

## Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at:

[http://www.auasb.gov.au/auditors\\_responsibilities/ar1.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar1.pdf). This description forms part of our Auditor's Report.
