### Operating and financial review

The Group recorded a consolidated statutory net profit after tax for the half year of \$22,224,000 (half year ended 31 December 2017: \$36,342,000). Statutory net profit after tax has been prepared in accordance with the *Corporations Act 2001* and Australian Accounting Standards.

The Group recorded an operating profit after tax for the half year of \$21,701,000 (half year ended 31 December 2017: \$30,212,000). Operating profit after tax excludes non-operating items such as transaction costs and fair value movements and share of net profit of equity accounted investments in excess of distributions received.

The statutory net profit after tax includes a number of items that are not operating in nature, the table below provides a reconciliation from Statutory Profit after tax to Operating Profit after tax.

	31 December 2018 \$'000	31 December 2017 \$'000
<b>Reconciliation of statutory profit to operating profit</b>		
Statutory profit after tax	22,224	36,342
Statutory earnings per security (EPS) (cents)	6.4	13.4
<b>Less non-operating items:</b>		
Unrealised loss/(gain) on fair value movements in derivatives, property and investments	(879)	(1,728)
Corporate restructure, transaction and other costs	5,346	110
(Profit)/loss attributable to controlled property funds	(1,019)	(2,886)
Eliminations between the operating and non-operating segment	35	(1,176)
Equity accounting adjustments	(2,736)	-
Tax impact of above non-operating adjustments	(1,270)	(450)
<b>Operating profit after tax</b>	<b>21,701</b>	<b>30,212</b>
<b>Operating EPS (cents)</b>	<b>6.5</b>	<b>12.1</b>

**Operating and financial review (continued)**

Operating profit after tax provides an assessment of performance of the Group aligned with the reporting to the Group's CEO for resource allocation purposes.

Operational highlights for the key divisions were as follows:

Segment	Operating profit after tax for the half year \$'000		Increase/ Decrease	%	Highlights
	31 December 2018	31 December 2017			
Property Funds Management	14,142	24,711	(10,569)	(43)	(a)
Investment Bonds Division	1,215	1,705	(490)	(29)	(b)
Co-Investments	9,201	5,106	4,095	80	(c)

**(a) Property Funds Management**

For the half year ended 31 December 2018, Property Funds Management operating profit after tax of \$14,142,000 was lower than the prior half year ending 31 December 2017 by \$10,569,000 primarily due to the impact of performance fees of \$9,557,000 recognised in the current half year in accordance with AASB 15 compared to \$25,830,000 of performance fees earned on the sale of 10 Spring Street in the half year ended 31 December 2017.

Excluding the after tax impact of performance fees, the Property Funds Management segment profit increased by \$822,000, reflecting the growth in assets under management (AUM) in addition to the contribution arising from the 360 Capital transaction that occurred at the end of the half year ended 31 December 2016.

Operational highlights for the half year included:

- Increase in recurring Property Funds Management segment revenue of \$1,321,000 or 7% from \$18,935,000 for the half year ended 31 December 2017 to \$20,256,000 for the half year ended 31 December 2018
- Increase in Unlisted AUM from \$1.9 billion as at 30 June 2018 to \$2.2 billion as at 31 December 2018
- Increase in Listed AUM from \$2.1 billion as at 30 June 2018 to \$2.6 billion as at 31 December 2018

**(b) Investment Bonds Management**

For the half year ended 31 December 2018, the Investment Bonds Management segment's operating profit after tax decreased by \$490,000 to \$1,215,000 due to strategic review costs and launch of new investment options branded as Centuria LifeGoals.

**(c) Co-Investments**

For the half year ended 31 December 2018, the Co-Investments segment operating profit after tax increased by \$4,095,000. This was primarily due to a significant increase in co-investment holdings across Centuria's listed REITs compared to the prior half year.

During the current half year, the Group's ownership stakes in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) increased to 20.76% and 24.15% respectively. As a result, the Group's accounting treatment of these investments changed from being recognised as financial assets held at fair value to equity accounted investments.

The operating profit after tax for the Co-Investments segment represents the distributions and returns generated from those investments after the applicable financing costs.

**Operating and financial review (continued)**

**Earnings per security (EPS)**

	31 December 2018		31 December 2017

Interim 2019 Trust distribution	3.40	13,038	4 February 2019
<b>Total amount</b>	<b>8.35</b>	<b>28,795</b>	

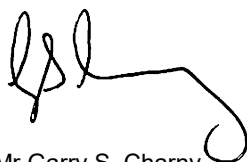

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 4.

**Rounding of amounts**

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' Report and interim financial statements. Amounts in the Directors' Report and interim financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

This report is made in accordance with a resolution of Directors.

## A About the report

### A1 General information

The shares in Centuria Capital Limited and the units in Centuria Capital Fund ('CCF') are stapled to trade together as a single stapled security ('Stapled Security') on the ASX as 'Centuria Capital Group' (the 'Group') under the ticker code, 'CNI'.

The Group is a for-profit entity and its principal activities are the marketing and management of investment products, including property investment funds and friendly society investment bonds, and co-investment in property investment funds.

#### Statement of compliance

The consolidated interim financial statements for the half year ended 31 December 2018 have been prepared in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

The consolidated interim financial statements do not include all the notes of the type normally included in the annual financial report. Accordingly, this report should be read in conjunction with the annual consolidated financial statements for the year ended 30 June 2018 and any public announcements made by the Group during the half year reporting period in accordance with continuous disclosure requirements of the *Corporations Act 2001*.

#### Basis of preparation

The consolidated interim financial statements have been prepared on the basis of historical cost, except for derivative financial instruments, financial assets at fair value through profit and loss and other financial assets, which have been measured at fair value at the end of each reporting period. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, which is the company's functional currency, unless otherwise noted.

Assets and liabilities have been presented on the face of the statement of financial position in decreasing order of liquidity and do not distinguish between current and non-current items.

#### Rounding of amounts

The Group is an entity of a kind referred to in ASIC Legislative Instrument 2016/191, related to the 'rounding off' of amounts in the Directors' Report and consolidated interim financial statements. Amounts in the Directors' Report and consolidated interim financial statements have been rounded off, in accordance with the instrument to the nearest thousand dollars, unless otherwise indicated.

### A2 Significant accounting policies

The accounting policies and methods of computation in the preparation of the consolidated interim financial statements are consistent with those adopted in the previous financial year ended 30 June 2018 with the exception of the adoption of new accounting standards outlined below or in the relevant notes to the consolidated interim financial statements.

When the presentation or classification of items in the consolidated interim financial statements has been amended, comparative amounts are also reclassified, unless it is impractical.

Accounting policies are selected and applied in a manner that ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events are reported.

The Group has now applied equity accounting to its investments in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) as the Group's ownership in these entities exceeded 20% during the period and significant influence was established. These investments were previously recognised as financial assets at fair value. Details of the accounting policy on equity accounted investments are included in Note E1.

The Group has applied new accounting standards and their impact is disclosed in Note A3.

### A3 Adoption of new accounting standards and interpretations

New and amended accounting standards relevant to the Group as well as their impact on the Group's consolidated financial statements that are effective for the period are as follows:

#### (a) AASB 9 Financial instruments

AASB 9 addresses the classification, measurement and derecognition of financial assets and financial liabilities, introduces new rules for hedge accounting and a new impairment model for financial assets. This standard replaces AASB 139 *Financial Instruments: Recognition and Measurement*.

##### (i) Classification – Financial assets

AASB 9 contains a new classification and measurement approach for financial assets that reflects the business model in which assets are managed and their cash flow characteristics.

AASB 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit and loss (FVTPL). The standard eliminates the existing AASB 139 categories of held to maturity, loans and receivables and available for sale.

On transition to AASB 9, the new classification requirements do not have a material impact on the Group's accounting for all receivables and financial assets (which are already carried at fair value with the exception of reverse mortgage loan receivables).

Reverse mortgage loan receivables were previously recorded at amortised cost using the effective interest method less impairment. On transition to AASB 9, these receivables will be reclassified to FVTPL, however, there is no material change in their measurement and as a result there is no impact on the Group's equity at 1 July 2018.

In future periods, implication of the change from amortised cost to FVTPL could result in increased volatility in the Group's results as gains or losses arising from changes in fair value measurement assumptions are now reported through the profit and loss.

##### (ii) Impairment – Receivables

AASB 9 replaces the 'incurred loss' model in AASB 139 with a forward-looking 'expected credit loss' (ECL) model. This will require considerable judgement about how changes in economic factors affect ECLs, which will be determined on a probability-weighted basis.

The new impairment model applies to the Group's receivables which continue to be measured at amortised cost. The new impairment model does not apply to the Group's reverse mortgage loan receivables which are now classified as FVTPL under AASB 9.

On transition to AASB 9, the new impairment model does not have a material impact on the Group's equity as at 1 July 2018.

##### (iii) Hedge accounting

The new hedge accounting rules generally allow for more hedge relationships to be eligible for hedge accounting, as the standard introduces a more principles-based approach. The Group does not have a significant impact as a result of the hedging changes on transition on 1 July 2018.

The Group has made an election under AASB 9 to continue to apply the hedge accounting requirements in AASB 139 instead of AASB 9 for its fair value hedges.

##### (iv) Transition

Changes in accounting policies resulting from the adoption of AASB 9 have been applied retrospectively, however as there is no material impact on carrying amounts of financial assets and financial liabilities, there will be no transitional implications on the Group's equity at 1 July 2018 nor its comparatives.

### A3 Adoption of new accounting standards and interpretations (continued)

#### (a) AASB 9 Financial instruments (continued)

##### (v) Accounting policies

##### Policy application from 1 July 2018

AASB 9 contains three principal classification categories for financial assets:

- measured at amortised cost;
- fair value through other comprehensive income (FVOCI); and
- fair value through profit and loss (FVTPL).

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

##### Financial assets at amortised cost

Loans and receivables are initially recognised at fair value and subsequently at amortised cost using the effective interest rate method less any allowance under the ECL model.

##### Recoverability of loans and receivables

At each reporting period, the Group assesses whether financial assets carried at amortised cost are 'credit-impaired'. A financial asset is 'credit-impaired' when one or more events that has a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The Group recognises loss allowances at an amount equal to lifetime ECL on trade and other receivables. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of the trade receivables and are a probability-weighted estimate of credit losses. Credit losses are measured as the difference between cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive.

The Group analyses the age of outstanding receivable balances and applies historical default percentages adjusted for other current observable data as a means to estimate lifetime ECL, including forecasts of interest rates and inflation, as well as the financial stress of counterparties and their ability to operate as a going concern. Debts that are known to be uncollectable are written off when identified.

##### Financial assets at fair value through profit and loss

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Reverse mortgage loan receivables financial assets are recognised at FVTPL.

### A3 Adoption of new accounting standards and interpretations (continued)

#### (b) AASB 15 Revenue from Contracts with Customers

AASB 15 Revenue from customers applies to all contracts with customers to deliver goods or services as part of the entity's ordinary course of business excluding insurance contracts, financial instruments and leases which are addressed by other standards. It replaces existing revenue recognition guidance, including AASB 118 *Revenue* and AASB 111 *Construction Contracts*.

AASB 15 replaces the considerations of risks and rewards under AASB 118 to the concept of when control passes to the customer as the trigger point for the recognition of revenue.

The Group's revenue streams which are in scope under the new standard include management fees from property funds, property acquisition fees, property sales fees and property performance fees. Rental income, interest income, distribution and dividend income and fair value movements in investment properties are excluded from the scope of this standard.

#### (i) Impact

The Group has adopted AASB 15 using the cumulative effect method and as a result, there has been no impact on the Group's previously reported financial position.

In accordance with AASB 15, based on the Group's assessment of when performance obligations are satisfied there is no change to the classification, measurement or timing of revenue recognition (other than property performance fees) when comparing to the previous accounting policy, other than the change in terminology.

Performance fees were previously recognised upon satisfaction of all conditions precedent to the sale of an investment property and when significant risks and rewards have transferred. There is no transitional impact from adoption of AASB 15, however future performance fees will be recognised at over-time. In assessing the timing and measurement of performance fees to be recognised, consideration is given to the facts and circumstances with respect to each investment property including external factors such as its current valuation, passage of time and outlook of the property market. Performance fees are only recognised when they are deemed to be highly probable and the amount of the performance fees will not result in a significant reversal in future periods.

In accordance with AASB 15, the Group has recognised \$9,557,000 of property performance fees for the period ended 31 December 2018. Under AASB 118, the Group would not have recognised any property performance fees.

#### (ii) Accounting policies

Revenue is recognised over time if:

- the customer simultaneously receives and consumes the benefits as the entity performs;
- the customer controls the asset as the entity creates or enhances it; or
- the seller's performance does not create an asset for which the seller has an alternative use and there is a right to payment for performance to date.

Where the above criteria is not met, revenue is recognised at a point in time.

##### (ii) Accounting policies (continued)

The table below summarises the changes in terminology with respect to the timing of revenue recognition between AASB 111 and AASB 118 compared to AASB 15 and the new revenue recognition policies under AASB 15.

Type of revenue	Description	Revenue recognition policy under AASB 118	Revenue recognition policy under AASB 15
Management fees	The Group provides:		
	a) fund management services to property funds in accordance with the fund constitutions. The services are provided on an ongoing basis and revenue is calculated and recognised in accordance with the relevant constitution. The fees are invoiced and paid monthly in arrears.	Recognised on an accruals basis based on the contract terms.	Over-time
	b) property management services to the owners of property assets in accordance with property services agreements. The services are utilised on an ongoing basis and revenue is calculated and recognised in accordance with the specific agreement. The fees are invoiced monthly with variable payment terms depending on the individual agreements.	Recognised on an accruals basis based on the contract terms.	Over-time
	c) lease management service to the owners. The revenue is recognised when the specific service is delivered (e.g. on lease execution) and consideration is due 30 days from invoice date.	Recognised in the period in which the services are rendered	Point-in-time
	d) development management services to the owners of property assets in accordance with development management agreements. Revenue is calculated in accordance with the specific agreement and invoiced in accordance with the contract terms. Consideration is due from the customer based on the specific terms agreed in the contract and is recognised when the Company has control of the benefit.	Recognised in the period in which the services are rendered	Point-in-time
Performance fees	The Group receives a performance fee for providing management services where the property fund outperforms a set IRR benchmark at the time the property is sold. The consideration is due upon successful sale of the investment property if the performance hurdles are satisfied.	Recognised in the period in which the services are rendered	Over-time
Recoverable outgoings	The Group recovers the costs associated with general building and tenancy operation from lessees in accordance with specific clauses within lease agreements. These are invoiced monthly based on an annual estimate. The consideration is due 30 days from invoice date. Should any adjustment be required based on actual costs incurred, this is recognised in the statement of financial performance within the same reporting period and billed annually.	Recognised on an accruals basis based on the contract terms	Over-time
Property acquisition fees	The Group provides property acquisition related services to property funds and the revenue is based on a fixed percentage included in the PDS issued at the establishment of the fund. The consideration is due upon successful settlement of the investment property.	Recognised in the period in which the services are rendered	Point-in-time

### A4 Use of judgements and estimates

In preparing these consolidated interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense that are not readily apparent from other sources. The judgements, estimates and assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation were the same as those applied in the consolidated financial statements as at and for the year ended 30 June 2018.

### A5 Segment summary

As at 31 December 2018 the Group has four reportable operating segments. These reportable operating segments are the divisions which report to the Group's Chief Executive Officer and Board of Directors for the purpose of resource allocation and assessment of performance.

The reportable operating segments are:

Operating segments	Description
Property Funds Management	Management of listed and unlisted property funds
Investment Bonds Management	Management of the Benefit Funds of Centuria Life Limited and management of the Over Fifty Guardian Friendly Society Limited. The Benefit Funds include a range of financial products, including single and multi-premium investments.
Co-Investments	Direct interest in property funds and other liquid investments
Corporate	Overheads for supporting the Group's operating segments and management of a reverse mortgage lending portfolio

In addition, the Group provides disclosures in relation to a further four non-operating segments, which are:

Non-operating segments	Description
Non-operating items	Comprises transaction costs, mark-to-market movements on property and derivative financial instruments, and all other non-operating activities including share of net profit of equity accounted investments in excess of distributions received
Benefit Funds	Represents the operating results and financial position of the Benefit Funds which are required to be consolidated in the Group's financial statements in accordance with accounting standards
Controlled Property Funds	Represents the operating results and financial position of property funds which are controlled by the Group and consolidated under accounting standards
Eliminations	Elimination of transactions between the operating segments and the other three non-operating segments above

The accounting policies of reportable segments are the same as the Group's accounting policies.

#### Key estimate and judgements

##### (a) Valuation techniques and significant unobservable inputs

The fair value of the investment properties were determined by the Directors of the Responsible Entity of the relevant funds or by an external, independent valuation company having an appropriate recognised professional qualification and recent experience in the location and category of the properties being valued. Fair value is based on market values, being the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

The valuations were prepared by considering the following valuation methodologies:

- Capitalisation Approach: the annual net rental income is capitalised at an appropriate market yield to arrive at the property's market value. Appropriate capital adjustments are then made where necessary to reflect the specific cash flow profile and the general characteristics of the property.
- Discounted Cash Flow Approach: this approach incorporates the estimation of future annual cash flows over a 10 year period by reference to expected rental growth rates, ongoing capital expenditure, terminal sale value and acquisition and disposal costs. The present value of future cash flows is then determined by the application of an appropriate discount rate to derive a net present value for the property.
- Direct Comparison Approach: this approach identifies comparable sales on a dollar per square metre of lettable area basis and compares the equivalent rates to the property being valued to determine the property's market value.

## Assets and liabilities

### C5 Investment properties (continued)

#### (a) Valuation techniques and significant unobservable inputs (continued)

The valuations reflect, when appropriate, the type of tenants actually in occupation or responsible for meeting lease commitments or likely to be in occupation after letting of vacant accommodation and the market's general perception of their credit-worthiness; the allocation of maintenance and insurance responsibilities between the lessor and lessee; and the remaining economic life of the property. It has been assumed that whenever rent reviews or lease renewals are pending with anticipated reversionary increases, all notices and, where appropriate, counter notices have been served validly and within the appropriate time.

The most significant unobservable input used in the above valuation techniques and its relationship with fair value measurement is the capitalisation rate. The higher/lower the rate, the lower/higher fair value.

#### (b) Fair value measurement

The fair value measurement of investment properties has been categorised as a Level 3 fair value as it is derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs).

## E Group Structure

### E1 Interests in associates

During the half year, the Group's investment in Centuria Metropolitan REIT (CMA) and Centuria Industrial REIT (CIP) exceeded 20% and significant influence was established. As a result, these investment which were previously recognised as financial assets at fair value are now accounted for using the equity method.

Set out below are the associates of the Group as at 31 December 2018 which, in the opinion of the Directors, are material to the Group and are accounted for using the equity method. The entities listed below have share capital consisting solely of ordinary units, which are held directly by the Group. The country of incorporation or registration is Australia which is also their principal place of business, and the proportion of ownership interest is the same as the proportion of voting rights held.

#### (c) Associates

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit or loss, and the Group's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity-accounted investments is tested for impairment.

### F1 Fair value of financial instruments

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy for financial instruments measured at fair value.

The table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There were no transfers between Level 1, 2 and 3 in the period.

The Group determines Level 2 fair values for financial assets and liabilities without an active market based on broker quotes. Level 2 fair values for simple over-the-counter derivatives are also based on broker quotes. Those quotes are tested for reasonableness by discounting expected future cash flows using market interest rates for a similar instrument at the measurement date. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the entity and counterparty where appropriate.

The Level 3 financial asset held by the Group is the fair value of the residential mortgage receivables attributable to interest rate risk. The Level 3 financial liability held by the Group is the fixed-for-life interest rate swaps. These items are designated in a fair value hedging relationship, with the fair value movements on the swaps offset by the fair value movements in the mortgage receivables. However, as the Group has only designated the fair value movements attributable to interest rate risk in the hedging relationship, any other fair value movements impact the profit and loss directly, such as credit risk movements.

## F1 Fair value of financial instruments (continued)

### Key estimates and judgements

The fair value of the 50-year residential mortgage loans and 50-year swaps are calculated using a valuation technique based on assumptions that are not supported by prices from observable current market transactions in the same instrument and not based on available observable market data due to the illiquid nature of the instruments. A discounted cash flow model is used for analysis using the applicable yield curve out to 20 years, with the yield curve at 20 years employed as the best proxy for subsequent rates due to non-observable market data and to reflect the average remaining life expectancy of the borrowers.

Assumptions and inputs used for valuation of reverse mortgage loan receivables:

- The loan interest compounding period is the expected remaining life of the borrower;
- Mortality rates for males and females have been assumed to be consistent with 2013-2015 Life Tables;
- The compounding interest rate is the fixed rate of loan for the period from day 1 up to the point of time when loan carrying amount equals the property value. After that point of time, the loan compounding rate will be reduced to the same as long term residential property growth rate determined by Management, on the grounds that any fixed rate exceeds the property growth rate will not be recovered after that point of time;
- For 31 December 2018 valuation, the property growth rates are -10% for FY2019, -5% for FY2020, then reverted back to 3% flat rate from FY21 onwards;
- Discount factors are calculated based on the market quoted long term rates on 31 December 2018;
- The 1% flat credit risk premium, reflecting the portfolio default profile, is added to the monthly cash flow discount factors to discount future cash flows generated by the reverse mortgage loans.

Assumptions and input for fixed -for-life interest rate swaps:

- Mortality rates for males and females have been assumed to be consistent with 2013-2015 Life Tables. The improvement factor tapers down to 1% p.a. at age, 90 and then zero at age 100;
- Joint life mortality is calculated based on last death for loans with joint borrowers;
- 46% of the residential mortgage loan portfolio consists of joint lives;
- Discount factors are calculated based on the market quoted long term rates on 31 December 2018;
- The 1.893% flat credit risk premium, reflecting the business default profile, is added to the monthly cash flow discount factors to discount future cash flows generated by the reverse mortgage loans.

## F2 New Accounting Standards and Interpretations

Certain new accounting standards and interpretations have been published that are not mandatory for period reporting periods and have not been early adopted by the Group. The Group assessment of the impact of these new standards and interpretations is set out below.

### (a) AASB 16 Leases

#### (i) Nature of change

AASB 16 was issued in February 2016. It will result in almost all leases being recognised on the balance sheet, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

#### (ii) Impact

The standard will affect primarily the accounting for the Group's operating leases. As at the reporting date, the Group has non-cancellable operating lease commitments. However, the Group has not yet determined to what extent these commitments will result in the recognition of an asset and a liability for future payments and how this will affect the Group's profit and classification of cash flows.

Some of the commitments may be covered by the exception for short-term and low-value leases and some commitments may relate to arrangements that will not qualify as leases under AASB 16.

## **F2 New Accounting Standards and Interpretations (continued)**

### **(a) AASB 16 Leases (continued)**

#### *(iii) Mandatory application date*

Mandatory for financial years commencing on or after 1 January 2019, but available for early adoption. Therefore mandatory application to the Group would be year ending 30 June 2020.

At this stage, the Group does not intend to adopt AASB 16 before its mandatory date.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

## **F3 Events subsequent to the reporting date**

On 9 January 2019, the Group exercised the remaining options outstanding to acquire 21,498,990 units in Centuria Retail Fund from 360 Capital Limited at an exercise price of \$0.91. The Group owns 49.99% of Centuria Retail Fund after this acquisition.

Other than the above, there has not arisen in the interval between 31 December 2018 and the date hereof any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations, or the state of affairs of the Group, in future financial years.

## Directors' declaration

In the opinion of the Directors' of Centuria Capital Limited:

- (a) the consolidated interim financial statements and notes set out on pages 5 to 38 are in accordance with the *Corporations Act 2001*, including:
  - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements, and
  - (ii) giving a true and fair view of the consolidated entity's financial position as at 31 December 2018 and of its performance for the half year ended on that date, and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of Directors.

# Independent Auditor's Review Report

To the stapled security holders of Centuria Capital Group

## Conclusion

We have reviewed the accompanying **Interim Financial Report** of Centuria Capital Limited (the Company) as the deemed parent presenting the stapled security arrangement of the Centuria Capital Group (the **Stapled Group**).

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the Interim Financial Report of Centuria Capital Group is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the **Stapled Group's** financial position as at 31 December 2018 and of its performance for the Half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Interim Financial Report** comprises:

- Consolidated interim statement of financial position as at 31 December 2018.
- Consolidated interim statement of comprehensive income, Consolidated interim statement of changes in equity and Consolidated interim statement of cash flows for the Half-year ended on that date.
- Notes A1 to F3 comprising a summary of significant accounting policies and other explanatory information.
- The Directors' declaration.

The **Stapled Group** comprises Centuria Capital Limited (the Company) and the entities it controlled at the Half year's end or from time to time during the Half-year and Centuria Capital Fund and the entities it controlled at the Half-year end or from time to time during the Half-year.

## Responsibilities of the Directors for the Interim Financial Report

The Directors of the Company are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*.
- for such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that is free from material misstatement, whether due to fraud or error.

## Auditor's responsibility for the review of the Interim Financial Report

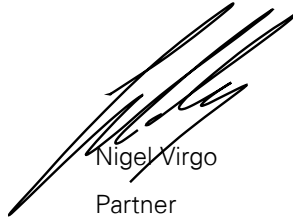

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. We conducted our review in accordance with *Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the Interim Financial Report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Stapled Group's financial position as at 31 December 2018 and its performance for the Half-year ended on that date; and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Centuria Capital Group, *ASRE 2410* requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
