Jesse Curtis, CIP Fund Manager and Centuria Head of Industrial, said, "FY22 has been a successful year for CIP with strong portfolio leasing activity, value-add projects and asset acquisitions contributing to its delivery on upgraded FFO guidance. CIP successfully leased over 185,000sqm across 49 transactions. It was also a year of significant transactions with short WALE assets, value-add projects and development acquisitions re-risking the portfolio to capture positive rent reversions while divestment of non-core assets recycle capital into higher yielding opportunities.

"During the period, Australia recorded one of the lowest industrial vacancy rates in the world (0.8%)¹³. A sustained increase in tenant demand, and limited supply of industrial accommodation, drove industrial rental increases nationwide. CIP benefitted from this significant upward shift in rents, achieving positive re-leasing spreads of 11% over prior passing rents⁹. Subsequently, CIP's portfolio metrics remain strong. Occupancy increased to c.99% with a weighted average lease expiry (WALE) of 8.3 years."

Sustainability

CIP is externally managed by Centuria Capital Group (Centuria) and aligns itself to Centuria's sustainability framework consisting of three core strategies – Conscious of climate change (Environmental), Valued stakeholders (Social) and Responsible business principles (Governance). Centuria Property Funds No 2 Limited (CPF2L) is the responsible entity for CIP and a wholly owned subsidiary of Centuria Capital Group. By the REIT's nature, CIP has no staff and is solely a portfolio of assets.

Throughout FY22, Centuria and CIP implemented various ESG initiatives, including:

- CPF2L Board changes: Non-Executive Director (NED), Nicholas Collishaw retired and Jennifer Cook was appointed as an Independent NED. The CPF2L board now has 50% female representation.
- Delivered Centuria's first Sustainability Report with the second to be released prior to Centuria's 2022 AGM
- New Green Building Council of Australia membership, continuing Diversity Council of Australia membership
- Adopted disclosures in line with GRI Index across CNI, CIP and COF
- Adopted the Task Force on Climate Related Financial Disclosure recommendations with climate change now a standard investment consideration, with adaptation plans being developed across the Centuria portfolio
- Gender diversity increased, with a ratio of 41% females to 59% males, across the Group
- 94%¹⁵ of employees enjoy working at Centuria, 96%¹⁶ of tenants are satisfied with Centuria as a landlord
- 1,100+ hours of compulsory employee training for cyber security¹⁷, and no cyber breaches during FY22

CIP's specific environmental considerations include pipeline industrial developments targeting a Five-Star Green Star rating. During FY22, the installation of 3,300 solar panels began on CIP's Warnervale asset as part of a 1.5 MW system, supporting key tenant client, Woolworths', 100% green electricity goal by 2025. CIP is also an industry participant in the NABERS Accelerate programme for Warehouses and Cold Stores.

Summary & Outlook

Jesse Curtis, concluded, "Globally, industrial real estate continues to benefit from strong tailwinds. Increasing ecommerce, and securing supply chain resilience, are driving strong demand. Domestically, despite recording strong rental growth during FY22, Australia's industrial market continues to see robust tenant demand. Labour shortages, supply change disruption and limited industrial zoned land have resulted in new industrial accommodation being in short supply. Coupled with sustained demand generated from trends of growing e-commerce adoption and increased reshoring, this is creating an environment for prolonged rental growth, particularly within urban infill markets where CIP has 85% of its portfolio.

“CIP is well positioned to continue delivering its strategy in FY23, capitalising on opportunities to deliver long-term income and capital growth to unitholders through leasing activity, value-add projects and its development pipeline. We expect these strong market trends to provide CIP with like-for-like net operating income growth throughout FY23. However, in formulating FY23 guidance we have taken into consideration the current inflationary environment and rising interest rates and our forecast provides buffers to manage potential interest rate volatility¹⁸.”

CIP, as Australia’s largest listed domestic pure play industrial REIT, provides FY23 FFO guidance of 17.0 cents per unit⁷ and distribution guidance of 16.0 cents per unit⁷ with distributions paid in equal quarterly instalments.
