Grant Nichols, COF Fund Manager and Centuria Head of Office said, "COF has generated solid results in FY22, delivering an increased net profit while providing FFO and distributions consistent with guidance despite the impacts of rising interest rates. The most pleasing aspect of the results was the significant amount of leasing that COF continued to execute, with over 40,000sqm leased during FY22. Since the outbreak of COVID-19, COF has leased 120,000sqm, equivalent to 40% of its net lettable area (NLA).

"During FY22, we witnessed a continuous shift in tenant preferences towards better quality accommodation that is close to key transport nodes, providing better commutability and subsequently improved work-life flexibility. COF's young office portfolio lends itself to these leasing preferences, with its modern and sustainable office buildings providing better access to wellbeing amenity, retail and hospitality while offering affordable rents. Australia's strong employment rate and rising return to office corporate policies, provide encouraging tailwinds for tenant demand in FY23."

Despite the increased tenure, there has been no material change to the weighted average debt margin. Debt covenants of a 50% loan to value ratio and 2.0x interest cover ratio apply to the new and extended debt facilities, in line with existing covenants. As at 30 June 2022, COF's loan to value ratio was 35.8% and the interest cover ratio was 6.3x.

COF benefits from a geographically diversified office portfolio without single market concentration. Throughout FY22, the REIT divested one building for \$20.9million, while acquiring three modern A-Grade assets worth \$313.7million⁷.

Transactions included:

- 101 Moray Street, South Melbourne VIC, acquired for \$205.1million
- 203 Pacific Highway, St Leonards NSW, acquired the remaining 50% interest for \$68.0million
- 57 Wyatt Street, Adelaide SA, development acquired for \$40.2million⁷
- 131 Grenfell Street, Adelaide SA, divested for \$20.9million, 10% above book value

COF's efficient, modern assets have an average building age of 16 years with 90% of the buildings being A-Grade assets and provide an average NABERS energy rating of 4.8-stars. These metrics underpinned strong leasing outcomes during FY22 with 41,283 sqm leased⁸ across 48 tenancies, representing 13.6% of portfolio NLA. Around half of these leases related to new tenants (17,605 sqm).

Through proactive asset management, approximately 77% of COF's leases expire at or beyond FY25. Approximately 80% of COF's portfolio income is derived from multinational, listed and government tenants. These quality tenants have delivered an 98.2% average rent collection throughout FY22.

All COF assets were independently valued during FY22, with 12 of the 23 properties being externally valued as at 30 June 2022, resulting in a \$37.9million like-for-like increase across FY22. While leasing success across the COF portfolio drove much of the valuation increase, recent transaction evidence demonstrates deep investor demand for quality metropolitan and near city office property, and strongly supports COF's net tangible assets.

Sustainability

COF is externally managed by Centuria Capital Group (Centuria) and aligns itself to Centuria's sustainability framework consisting of three core strategies – Conscious of climate change (Environmental), Valued stakeholders (Social) and Responsible business principles (Governance). Centuria Property Funds Limited (CPFL) is the responsible entity for COF and a wholly owned subsidiary of Centuria Capital Group. By the REIT's nature, COF has no staff and is solely a portfolio of assets.

Throughout FY22, Centuria and COF implemented various ESG initiatives, including:

- CPFL Board changes including Elizabeth McDonald being appointed as an Independent Non-Executive Director (NED) and Member of the CPFL Audit, Risk and Compliance Committee and Nicholas Collishaw retiring as a NED
- Belinda Cheung was appointed as COF's Assistant Fund Manager
- Centuria delivered its first Sustainability Report with the second to be released prior to Centuria's 2022 AGM
- New Green Building Council of Australia membership, Diversity Council of Australia continued member
- Adopted disclosures in line with GRI Index across all Centuria listed entities including COF

- Centuria's gender diversity of 41% to 59%, females to males
- 94%¹⁴ of employees enjoy working at Centuria, 96%¹⁵ of tenants are satisfied with Centuria as a landlord
- 1,100+ hours of compulsory employee training for cyber security, and no cyber breaches during FY22

Specific to the environment, over the course of FY22, COF achieved an increased NABERS Sustainable Portfolio Index (SPI) energy rating of 4.8 Stars and NABERS water rating of 3.9 Stars. The NABERS SPI showcases property portfolios across Australia and is becoming an industry benchmark for the environmental performance of Australian real estate portfolios.

Summary & Outlook

Mr Nichols, commented, "Throughout FY22, we saw the impact of COVID retreating as more workers returned to the office and employment rates strengthened. However, prevailing inflation, and subsequent rising interest rates, have impacted our FY23 FFO guidance, though we expect COF to have like-for-like net operating income growth through FY23. In making FY23 guidance, we have adopted an interest rate forecast with suitable buffers to manage potential further interest rate volatility¹⁶. Based on the recent trading price, the FY23 distribution guidance represents a yield of 7.7%⁵."

"We recognise that a rising interest rate environment creates some future uncertainty, but we remain optimistic for Australian office markets. Tenant enquiry levels, backed by strong employment growth, continue to improve with some of the strongest demand evident in metropolitan office markets, while rising construction costs are likely to temper supply. This bodes well for medium term rent growth."

COF provides FY23 FFO guidance of 15.8cpu⁴ and distribution guidance of 14.1cpu⁴ (distribution yield of 7.7%⁵), which are expected to be paid in equal quarterly instalments.
