**Table 2: Example of annual fees and costs for an investment in the Fund**

This table gives you an example of how the annual fees and costs for this product can affect your investment over a one-year period. You should use this table to compare this product with other products offered by managed investment schemes.

Example – Fund	Balance of \$50,000 with a contribution of \$5,000 during the year	
<b>Contribution fees</b>	Nil	You will not be charged a contribution fee.
<b>PLUS</b> management fees and costs	1.45% <sup>1</sup>	<b>And</b> for every \$50,000 you have in the Fund, you will be charged or have deducted from your investment \$725 each year.

<b>EQUALS</b> cost of Fund <sup>3</sup>	2.65%	If you had an investment of \$50,000 at the beginning of the year and you invested an additional \$5,000 during that year, you would be charged fees and costs between \$1,325 and \$1,458. What it costs you will depend on the fees you negotiate.

Notes:

1. These amounts represent the ratio of the Fund's management fees and costs and transaction costs to the Fund's total average net assets for the year to 30 June 2024.
2. This amount represents the ratio of the Fund's average annual performance fee to the Fund's total average net assets for the financial year to 30 June 2024.
3. The fees and costs of the Fund will change over time as the costs of managing the Fund and the Fund's investments change and based on the performance of the Fund. For example, in years where the Fund acquires a real property asset, directly or indirectly, an establishment and placement fee and transaction costs will be paid and the Fund's transaction costs will therefore be higher than in years when the Fund does not make an acquisition. Changes to the fees and costs of the Fund may take the form of a notice on the Fund's Website. Further information is included under the heading 'Additional explanation of fees and costs' in the PDS.
